Templar v1.7 - Development Setup Guide

Templar v1.7 is very easy to setup for development, provided you have the prerequisites installed

1. Microsoft Visual Studio 2012 professional or higher
2. SQL server 2008 R2 or higher
3. .Net framework 4.5

Steps to follow:

- Download Templar v1.7 setup from the download link provided to you
- Unzip and open "Tavisca.Templar.Development.sln" in VS 2012
- Run it and follow the installation steps as shown below

1. Enter database server details for setup. Please ensure the DB user provided has permission to create a database.

The screenshot shows the first step of the installation wizard. The title bar says 'Welcome to Templar installation wizard'. Below it, a subtitle reads 'Follow the steps below to setup Templar on your machine'. The main content area is titled 'Step 1: Please enter database server details'. It contains four input fields: 'Server name:', 'Authentication:' (a dropdown menu currently showing 'Windows'), 'Username:', and 'Password:'. A 'Next' button is located at the bottom right of the form area. At the very bottom of the window, there is a copyright notice: '© Tavisca Solutions, Pvt. Ltd. 2014'.

2. Enter new Templar database name and details for SuperUser account. Check the "Add Started kit" for creating a sample site

The screenshot shows the second step of the installation wizard. The title bar says 'Welcome to Templar installation wizard'. Below it, a subtitle reads 'Follow the steps below to setup Templar on your machine'. The main content area is titled 'Step 2: Please enter database name and SuperUser details'. It contains four input fields: 'Database name:', 'SuperUser login name:', and 'SuperUser Password:'. Below these fields are two checkboxes: 'Change password at first login' (which is checked) and 'Add Starter Kit: [checked] (This will add a sample application to your setup)'. 'Previous' and 'Next' buttons are located at the bottom right of the form area. At the very bottom of the window, there is a copyright notice: '© Tavisca Solutions, Pvt. Ltd. 2014'.

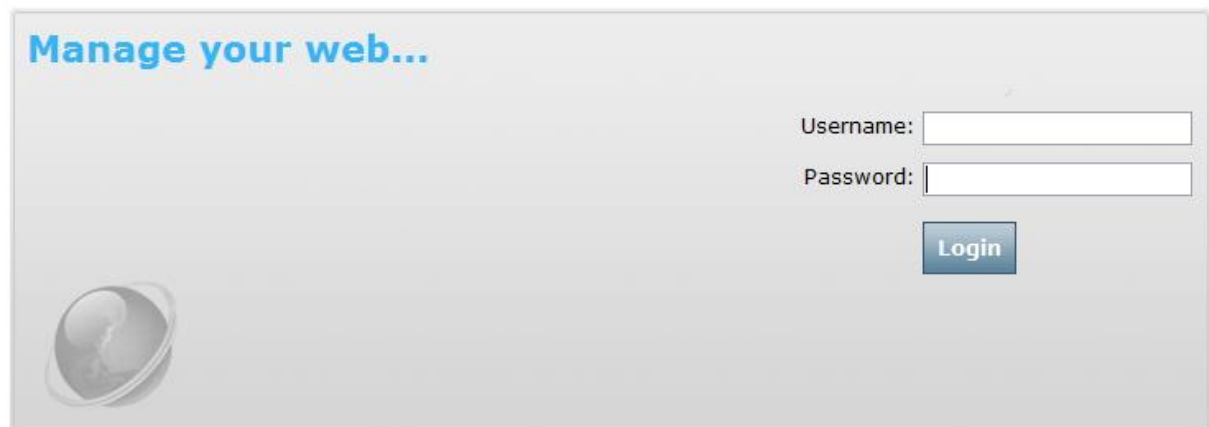

3. Please wait for setup to complete.

4. Post successful setup you should see the following screen.

5. Now login with your new credentials

6. If everything went well you should see the default site listing page as shown below.

Create new site Update existing site					Search site : <input type="text"/>							
No	Site Name	Site Url	Created on	Last published	Status	Load	Current	Live	Edit	History	Publish	Delete
1	Travel Store	tstore	09 Sep 2013	54 min 29 sec								
2	Demo	demo	09 Sep 2013	52 min 5 sec								
3	i18n	i18n	09 Sep 2013	52 min 22 sec								

7. To view the site click on Current link. It should open a page like below
